NOTE: Read installation instructions thoroughly before starting installation process.

Step 1: Lay out the area and prepare the site for install. Concrete must be installed over a solid, level base. Check local soil condition and codes. See product installation instructions for minimum use zone requirements to ensure proper spacing and adequate surfacing area.

Step 2: Refer to the typical in-ground footing detail on excavating a hole for the Component.

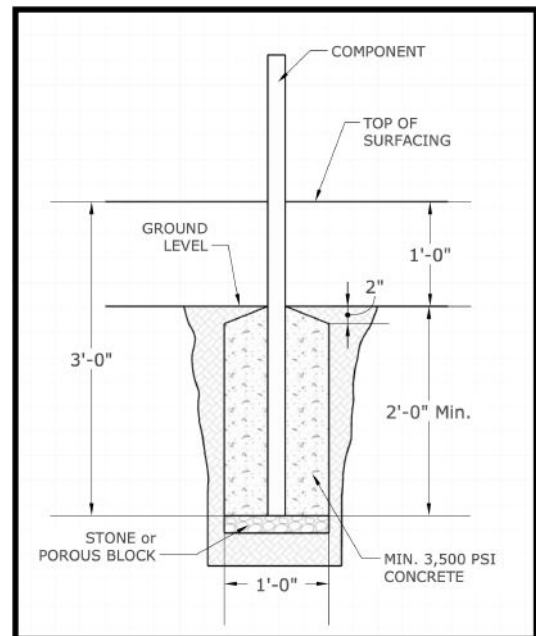

Step 3: Attach the Net ends to the Rock Climber tabs using hardware kit# HK133. Attach the in-ground frame to the footing side of the net ends using hardware kit# HK133. Insert the rebar into the hole of the in-ground frame. Place the in-ground frame into the excavated footing, temporarily bracing while pulling the net taught. Pour a concrete footing. The concrete should be flush with the ground level, as shown in the typical in-ground footing detail. Allow time for the concrete to cure completely before continuing.

Step 4: Remove temporary bracing.

NOTES PRIOR TO CONSTRUCTION:

- Use appropriate equipment to lift and move the play equipment.
- Check local codes and requirements prior to digging or installing any equipment.

Typical Component Footing Detail
Check local soil conditions.
(Not to Scale)

NOTE: Always wear eye protection appropriate to the task at hand.

Net Climbers & Links

Product: 8000207, 8000208,
8000209, 8000210, 8000211

8000207 Angled Net Climber	Description	Quantity
Angled Net Climber - 4'	Play Equipment	1
In-ground Frame w/Rebar - WA4052	Mounting Frame Asm.	2
Hardware Kit# HK133	Bushing	4
Hardware Kit# HK133	Nylon Washer	16

8000208 Angled Net Climber	Description	Quantity
Angled Net Climber - 6'	Play Equipment	1
In-ground Frame w/Rebar - WA4052	Mounting Frame Asm.	2
Hardware Kit# HK133	Bushing	4
Hardware Kit# HK133	Nylon Washer	16

8000209 Double Angled Net Climber	Description	Quantity
Double Angled Net Climber - 6'	Play Equipment	1
In-ground Frame w/Rebar - WA4052	Mounting Frame Asm.	3
